24 Nov'1999

My dear Chhatwal Sahib,

I was suffering from bleeding external piles for the last 25 years. According to medical advice received by me on several occasions, the only way to get rid of the trouble was said to be surgery.

Gods ways are indeed strange. In an early Sat Sang of "Papaji" S Bhagwant Singh Dalawri, a lady asked me before dispersal why I needed two cushions for squatting on the floor. On my telling her the cause, she told me of a herbal medicine being made by a relative of hers. I did not attach much importance to the information till I happened to visit her in C-278, Defence Colony, on the morning she was leaving Delhi and she handed over to me a strip containing 10 capsules in a modern pack named "PYKURE" and told me that all I had to do was to take 2 capsules every night before going to bed (after dinner) for five days. I kept the strip on my bed side for about a week till I got a bleeding attack. Just in an "Let me try this also" mood, I took the 10 capsules in the next 5 days. Look & Behold, I was fully cured. It is more than eight months now and I have no trouble. I do not know where the piles have gone. The medicine "PYKURE" manufactured by your pharmaceutical company is indeed a wonder drug. At least it has done wonders to me. I wish the medicine manufactured by you is marketed to benefit suffering humanity.

Yours Sincerely,

(R.S. NARULA)
